1. Organization and Business

Finantia USA Ltd. (the “Company”), incorporated under the laws of the State of Delaware, is a broker-dealer in securities registered with the Securities and Exchange Commission (the “SEC”) and a member of the Financial Industry Regulatory Authority (“FINRA”). The Company is a wholly owned subsidiary of Finantia Holdings B.V. (the “Parent”), which is an indirect wholly owned subsidiary of Banco Finantia S.A. (the “Ultimate Parent”).

The Company acts as a broker for institutional customers in the purchase and sale of foreign securities. The Company executes and clears all of these foreign trades through two separate affiliates. These trades are settled on a delivery versus payment basis. The Company’s commissions on foreign securities transactions are allocated by the affiliates and remitted to the Company periodically.

The Company does not carry customer accounts or perform custodial functions relating to customer securities and, accordingly is exempt from the provisions of Rule 15c3-3 under the Securities Exchange Act of 1934.

2. Summary of Significant Accounting Policies

Basis of Presentation

These financial statements were prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reported period. Actual results could differ from these estimates.

Cash

Cash deposits are held at two New York financial institutions and therefore are subject to the credit risk at these financial institutions. The Company has not experienced any losses in such accounts and does not believe there to be any significant credit risk with respect to these deposits.

Leasehold Improvements and Equipment

Leasehold improvements are recorded at cost, net of accumulated amortization, which is calculated on a straight-line basis over the lesser of the economic useful life of the improvement or the term of the lease. Equipment is recorded at cost, net of accumulated depreciation, which is calculated on a straight-line basis over estimated useful lives of three to five years.

Income Taxes

The Company’s earnings are subject to applicable U.S. federal, state and local taxes. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period that includes the enactment date. In the event it is more likely than not that a deferred tax asset will not be realized, a valuation allowance is recorded.

Finantia USA Ltd.

6. Income Taxes

Deferred tax assets relate to differences between book and tax relative to depreciation and deferred rent expense. The statutory rate differs from the effective rate primarily due to the effects of state and local taxes and the change in federal deferred tax rates.
